Subject: Amendment Approval, Sage Canyon Mass Excavation, M/049/0071, Utah County, Utah

Dear Mr. Sumsion:

Thank you for submitting a supplemental figure and updated text for Section R647-4-106.9 of the Notice of Intention to Commence Large Mining Operations (Notice) as per the requirements for abatement of Notice of Violation MN-2016-60-4. The Notice of Violation has now been terminated.

The Division of Oil, Gas and Mining understands that mining is dynamic, and therefore the Notice is also a dynamic document. Any modifications to the Notice must be submitted to the Division on a regular basis. The Division relies on the approved mine plan to fully understand the existing operation while conducting annual inspections. It is important to keep the Notice current, as annual inspections will continue to occur at this mine site.

Attached is your copy of the approved pages to be incorporated into your copy of the Notice. Please contact the lead inspector, April Abate, at 801-538-5214, or me at 801-538-5261 if you have questions regarding this letter. Thank you so much for your cooperation in completing this important permitting action.

Sincerely,

Paul B. Baker
Minerals Program Manager
